Team Bellyflop Competition

Teams consist of 3 competitors. Each competitor performs one bellyflop from the 1-meter platform.

Competitors can choose whether to land on their front or back. Each jump is judged individually, and all three scores are added together to create the team's final score.

Scoring

Each bellyflop is judged in three categories:

Category	Points	Judged on
Artistic	1–10	Style, creativity, pose, commitment and entertainment
Sound	1–10	Volume and quality of the *SLAP*
Splash	1–10	Size, height and general magnificence of the splash

So each competitor can score **30 base points**, giving a team a maximum base score of **90 points**.

Bonus Points

Red Spot Bonus: +1 to +5
After each jump, the judges may award bonus points based on the resulting red spot. The bigger and more impressive the red spot, the higher the bonus.

"What the Fuck Was That?" Bonus: +1
A judge may award one bonus point for an exceptionally ridiculous, unexpected or spectacular jump. Maximum once per competitor.

This means one competitor can theoretically score **36 points**, and a team can score a maximum of **108 points**.
